

Dear John,

1/4/94

You did send me the Riebling biblio.

Chamuncey Holt is a fake in that there was no assassination or Oswald connection. I've never tried to ^{remember} learn the names of the three who were arrested because they are not and never were relevant. This newest fiction is by the La Fontaines and they lie to sensationalize. Not a bit of any variant of those stories is either true or relevant. I do not know Kelley, know Judge as crazy on this subject and never interested in the fact of the assassination. Those kind of people and the organizations they start do not help and they do hurt all who are serious and work to establish truth.

If it is practical for Maryanne to do some typing for me, fine. I can see some problems but as yet I've gotten no local replacements for those who have been doing it. My typing and writing are so bad a computer is much better because it eliminates total retying or dirty final copy.

Thanks and best wishes,

Handy
